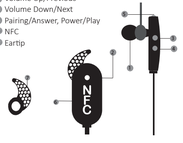
- Pairing/Answer, Power/Play
- NFC
- Eartip



Right Ear Buds

05. Battery information

The device is equipped with an integrated lithium-polymer battery.
The battery cannot be replaced. Do not attempt to remove the battery from the device since it would damage the device. The full performance of a new battery is not achieved until after two or three complete charging-discharging cycles. The battery can be charged and discharged several hundred times, but it looses its capacity over time.
Disconnect Miia in Ear Bluetooth from the power supply as soon as the battery is fully charged, overcharging would reduce the service life of the battery. A charged battery will lose its capacity if it is not used on a regular basis. Important: Ensure that the battery is fully charged if you do not use the device for a long period of time. To avoid a complete discharge of the battery, your device should be charged at least every 3 months.

06. Charging the battery

Miia in Ear Bluetooth is operated with a recharge-able battery. Charge the battery completely before its first use. Read the section "Battery information" before starting the charging process.
1. Connect USB cable to a general USB power supplier.
2. Connect the charger to the correct outlet.
3. When the charger is connected to the headset, the red indicator light will turn on. Charging the battery fully may take up to 1 hours.

4) When the battery is fully charged, the red indicator light will turn blue. Disconnect the charger from the headset and the outlet. The headset is ready to use.

NOTE:
For first time use, please charge the headset fully.
- The fully charged battery has power for up to 7 hours of talk-time and 6 hours music playing time, and up to 350 hours of standby time. However, the talk and standby performance may vary from the above values due to different cellular network, Bluetooth devices, usage settings, usage styles, and environments. When the battery power is low, the headset will remind you by sound "di-di-" every 20 seconds, and the red indicator light starts to flash.
- For using the **Miia in Ear Bluetooth** with IOS devices, an additional battery meter (**see**) will be activated and the remaining battery capacity will display on your devices.

07. Pair to your Bluetooth phone

Before you use your headset the first time, you must pair the unit with a Bluetooth enabled mobile phone. Pairing is a one-time process and required only for the first connection with the Mobile phone. **Miia in Ear Bluetooth** can be connected with two mobile phones simultaneously.
1. Keep the **Miia in Ear Bluetooth** within 1 meter range of a Bluetooth -ready Mobile phone.
2. Press and hold the Power/Play button for about 5s, the indicator light will flashes red and blue intermittently, the device is now in pairing mode.
3. Find the Bluetooth setting of your Mobile phone and start the search for Bluetooth devices. (For further details, please read the operating instructions of your Mobile phone).

4. From the list of devices found, select ""**AU-IE8T-BLK**"".
5. If required, enter the PIN code "0000" and confirm the entry. Once the pairing process was successful, **Miia in Ear Bluetooth** will connect to Mobile phone automatically then switch to standby mode, the indicator will flash blue every 5 seconds.
6. If you want to pair two Bluetooth devices, please
6.1 Firstly, pair **Miia in Ear Bluetooth** with one Bluetooth device
6.2 Switch off **Miia in Ear Bluetooth**, and switch on again
6.3 Pair and connect to the other Bluetooth device
6.4 Switch off **Miia in Ear Bluetooth**, and switch on again, **Miia in Ear Bluetooth** will connect with two devices automatically.

NOTE:
- If pairing is not completed within 2 minutes, the headset will turn-off. If this happens, please repeat the pairing steps.
- The **Miia in Ear Bluetooth** supports connection that allows for the simultaneous use of **Miia in Ear Bluetooth** with two mobile phones. After pairing successfully with 2 mobile phones, switch off the headset and switch on again, the headset will connect to both 2 mobile phones automatically. Otherwise, you can connect the headset on the cellphone manually.

08. Connect/Disconnet with an NFC device

Connect with an NFC device
1. Ensure that NFC is enabled on your mobile device.
2. Locate the NFC zone (right ear bud) on the headset against the NFC zone on your mobile device. The mobile device will announce that the headset is now paired when the connection is successful.
Disconnect with an NFC device
Repeat the operation to disconnect. The mobile will announce that the headset is now disconnected. To conserve power, if the headset is not connected to a device for approximately 10 minutes, the headset will turn off automatically.

Note: NFC devices have NFC implemented in different ways. The size and sensitivity of the NFC zone and how to connect the headset may vary between devices.

09. Turning headset on /off

Turn on your headset
Long press the Power/Play for 3s to turn on your headset. If your headset has completed the pairing process successfully, when the headset is turned on, it will connect to the phone you last connected automatically. Please ensure your phone's Bluetooth function is active.

Turn off the headset
Long press the power button for 3s to turn off the headset. The Red indicator will flash red.

NOTE:
- To conserve power, if the headset is not connected to a device for approximately 10 minutes, the headset will turn off automatically.

10. Using for music play

Play/Pause
Press Power/Play button to get the music play or pause.
Next/Previous song
Press and hold Next button to skip to next song or chapter, press and hold Previous button to go back previous song or chapter.
Increase/Decrease volume
Press Volume Up button to increase volume, press Volume Down button to decrease volume.

11. Using for phone call

Last number re-dialing
At standby status, double press the Answer, the last number you dialed will be re-dialed.
Note: The last number re-dialing is available only for the first device if two Mobile phones are connected. The connection sequence can be determined by reconnect manually.

Answering a call
Press Answer shortly to answer the incoming call.
Reject an incoming call
Press and hold Answer for 2 seconds to reject the incoming call.
Transferring a call
Press and hold Volume Up for 2 seconds to transfer the call between the phone and headset.
Ending a call
Press the Answer shortly to end a call.

Call-waiting
- If there is an incoming call while a call is in progress, press
Answer shortly to accept the waiting call and end current calling.
- If there is an incoming call while a call is in progress, press and hold Answer for 3 seconds to accept the incoming call and place the current call on hold.
Note: The same operation could be performed in case of Multi-connection.

Volume adjusting
Press the Volume Up and Volume Down button to adjust the volume.
Mute
While a call is in progress, press and hold Volume Down button for 2s to mute the headset, a remindful tone would be heard every 10 seconds. Repeat the operation to un-mute.

12. Safety and general information

1. Please read this User's Manual carefully and follow all instructions.
2. To avoid any damage or malfunction of the device do not drop the device from high places.
3. Keep device away from humidity, water and any other liquid. If the device is exposed to water, moisture and other liquids do not operate it to avoid any electrical shock, explosion and damage to the device or yourself.
4. Do not place or keep this device near any heat sources, such as, direct sunlight, radiators, stoves or other apparatus that produce heat. This may cause an explosion, degrade the performance and/or reduce battery life.

5. Do not modify, repair or disassemble device (Especially the battery). Doing this will void the warranty.
6. Do not place heavy objects on the device.
7. Use only the supplied and approved chargers.
8. Unplug this device when unused for long periods of time or during lightening storms.
9. The battery used in this device may present a risk of fire or chemical burn if mistreated.

INFORMATION FOR USERS

Pursuant to Legislative Decree no. 49 of 14 March 2014 "Attuazione della Direttiva 2012/19/UE sui rifiuti di apparecchiature elettriche ed elettroniche (RAEE)"
The symbol of the crossed out wheeled bin on the equipment indicates that the product must be collected separately from other waste at the end of its useful life. Therefore, the user must turn in the equipment, complete with all its essential compo-nents, at the end of its useful lifetime to an appropriate centre for separate collection of electrical and electronic waste. The user may also take to the retailer at the time new equipment of an equivalent type is purchased, trading one item for one item, or one item for zero items for devices

measuring less than 25 cm on the longest side. Suitable separate collection for ensuring that the equipment is recycled, handled and disposed of compatibly with environmental obligations prevents possible negative effects on the environment and human health. It also favours the recycling of the materials that the device is made of. Improper disposal of the product by the user implies the application of administrative penalties as per D. Lgs n. Legislative Decree no. 49 of 14 March 2014
